

Autolinium Project Report

Date: February 23, 2026 | Manager: Project Lead

Overall Progress: 20%

Executive Summary

Today was a critical "Foundation Day." We established the core digital infrastructure and the visual identity of the Autolinium system. These technical hurdles ensure the system is secure, scalable, and ready for primary feature construction.

Digital Infrastructure Live

Successfully linked the secure central database to the system's logic engine.

Visual Identity & Branding

Finalized the "Modern Retro" theme, ensuring a premium feel across all mobile and desktop devices.

Implementation Roadmap

MILESTONE	STATUS	FOCUS AREA
System Blueprinting	COMPLETE	Requirements & Logic Audit
Database Architecture	COMPLETE	KPI & Attendance Storage
Frontend Interface	IN PROGRESS	Dashboard & Mobile Layouts

MILESTONE	STATUS	FOCUS AREA
